14th April 2010

Dear Colleague,

## **City Briefing 21**

With the State election now less than a year away and the Government widely criticised for its inadequacies, Opposition policy holds more than usual interest for those involved in one aspect or another of New South Wales' economic viability and future direction.

**Brad Hazzard MP**, the Opposition's Shadow Minister for Planning, will speak to us about **Opposition Planning Policy** on **Wednesday 28th April** at 5.00pm.

Mr Hazzard is an experienced parliamentarian, having been first elected to the NSW Parliament in 1991. He began his professional life as a science teacher, and while teaching at North Sydney Boys' and other high schools studied Law at UNSW. He graduated with a Master of Laws degree from Sydney University in 1984 and practised as a solicitor before becoming the Member for Wakehurst. Brad has held a number of shadow portfolios and was given responsibility for Planning in April 2007.

The meeting will be held as usual at the Sydney Mechanics' School of Arts, 280 Pitt Street, and will conclude by 6.15pm with refreshments. We look forward to your contribution to this important policy field.

Bob Solomon  
**(Chairman)**
